 Activities

LOCATION

The Institute is located twenty five miles south of Charlottesville and ten miles north of Lovingston in Nelson County, Virginia. It is situated in the foothills of the Blue Ridge Mountains on 730 acres called the New Land. Woods, ridges, pastures, streams and awe-inspiring views of the mountains are a daily diet for participants.

Sessions take place in the Center, which is a building designed and constructed not only for ultimate comfort and relaxation, but with unique learning facilities which include large and small meeting rooms and twenty-four CHEC (Controlled Holistic Environmental Chamber) units. The CHEC units have a dual function, in that they are the sleeping quarters for the participant, as well as a very specialized learning center, supplied with headphones and environmental equipment. There is no other known facility in the world like this.

The setting for the Center is also a key element in the learning experience. The pastoral beauty of the Blue Ridge Mountains, away from the tensions and noises of the city, gives immediate impetus to mental and physical relaxation.

Charlottesville is the arrival point for those coming by plane, train or bus. Directions are available for those arriving by automobile.

1981 SCHEDULE

MARCH

20-22.....Focus 12 Club
27-29.....Image & Symbol

APRIL

3-5.....Focus 12 Club
12-17.....Management Training
24-26.....Intro to Psychosynthesis

MAY

2-10.....Gateway: Voyage
15-17.....Fascinations: Reflections
 of the Self in Nature
21-24.....Dream Workshop
29-31.....Focus 12 Club

JUNE

14-19.....Management Training
19-26.....Wilderness Vision Quest

JULY

3-5.....Focus 12 Club
6-12.....Dream Workshop
18-26.....Gateway: Voyage

JULY-AUG

31-6.....Wilderness Vision Quest

AUGUST

15-23.....Gateway: Voyage
27-30.....Dream Workshop

SEPTEMBER

4-6.....Focus 12 Club
6-12.....Wilderness Vision Quest
13-18.....Management Training
24-27.....Gateway: Discovery

OCTOBER

2-4.....Focus 12 Club
10-18.....Gateway: Voyage
21-24.....Dream Workshop
25-30.....Management Training

NOVEMBER

6-8.....Focus 12 Club
15-20.....Management Training

NOV-DEC

28-6.....Gateway: Voyage

ABOUT THE INSTITUTE

The Institute was founded by Robert A. Monroe, engineer, executive and author of JOURNEYS OUT OF THE BODY. His book, published in five languages, is distributed on a world-wide basis by Doubleday.

Upon completion of major facilities on the New Land, the Institute, which is an educational and research organization, is expanding by offering an additional selection of educational training programs.

The Institute is supported by tuition, donations, contributions, consultant fees and grants from foundations and other organizations.

The activities and policies of the Institute are directed by a Board of Advisors consisting of the following:

James Beal, Engineer
Warren Braun, Engineer
Wilson Bullard, Bio-Chemist
Anthony K. Busch, Psychiatrist
Thomas Campbell, Physicist
Gregory Chandler, Publisher
Carole Dean, Executive
David Francis, Executive
Arthur Gladman, Psychiatrist
William E. Herrmann, Educator
Fowler Jones, Psychologist
Mary Jane Ledyard, Psychologist
Todd Mickurea, Psychiatrist
Joseph Pearce, Author
Bill D. Schul, Educator
Stuart Twemlow, Psychiatrist

MICHAEL H. BROWN, M.A.

Mar. 27-29--Image & Symbol
Apr. 24-26--Intro to Psychosynthesis
May 15-17--Fascinations:
Reflections of the Self in Nature

Wilderness Vision Quest:
June 19-16
July 31-August 6
September 6-12

Cost includes room and board and
round-trip transportation from area
of arrival in Charlottesville.

IMAGE & SYMBOL: This program will
explore the use of two specific
right-brain functions: the ability
to enter the inner world of imagery
and the ability to create symbols.
Participants will learn to utilize
these two functions in ways that
expand their capacity for holistic
living.

INTRODUCTION TO PSYCHOSYNTHESIS:

Psychosynthesis is a dynamic con-
ception of psychological life and
human evolution which stresses the
harmonization of ordinary levels
of awareness with higher states of
consciousness. Beginning
with the unique situation

OVER----

of each person, Psychosynthesis is
growth oriented, and directs a per-
son toward the actualization of la-
tent talents and abilities.

FASCINATIONS: REFLECTIONS OF THE
SELF IN NATURE: During this pro-
gram, the focus will be on the de-
velopment of transpersonal levels
of awareness. In a process called
"Fascinations", we will examine
and explore those aspects of the
land which attract our attention.
Then we will connect to our in-
herent capacities to dialogue with
energy systems within the mineral,
plant and animal kingdoms.

WILDERNESS VISION QUEST: This is a
week-long backpacking trip which
has, as its purpose, the rediscov-
ery of our essential wholeness
through an intimate encounter with
nature. Through an intense group
process, and deep contact with the
land, we will harmonize body, feel-
ings and mind, and be open in dyna-
mic ways to the spiritual dimen-
sions of the world within and a-
round us.

ABOUT THE LEADER

Michael H. Brown, with an M.A.
in Psychology, and extensive train-
ing in Psychosynthesis, is deeply
committed, as an educator, to the
areas of inner exploration and self
realization. As an artist, musi-
cian and poet, Michael has been
combining his many talents to con-
duct personal growth training pro-
grams throughout the U.S. and Can-
ada for over seven years.

led by
ROBERT VAN DE CASTLE, Ph.D.

WEEKEND WORKSHOPS

May 21 to 24
August 27 to 30
October 21 to 24

WEEK-LONG WORKSHOP

July 6 to 12

COST: WEEKENDS --- \$250
WEEK-LONG --- 600

Cost includes room, board and round-trip transportation from point of arrival in Charlottesville.

ABOUT THE WORKSHOPS

How can we learn to tune in to our dreams? These dream workshops are designed to answer that question. Instruction will be provided on methods to improve dream recall, and several techniques will be presented to help explore the rich meanings contained in the symbols and metaphors of our dream imagery. We will carry out these exciting explorations in a group setting which will allow us to grow in self-understanding of others as we share and exchange the insights which evolve as we develop these techniques of self-discovery.

The unique facilities of the Center will be used for pre-sleep audio programming to enhance various forms of dreams. Attempts will be made to experience lucid "controlled" dreams, and creative and telepathic

OVER----

dreams. The weekend workshop will provide an introduction to these various dream modalities, while the week-long workshop will enable more in-depth coverage of these topics.

ABOUT THE LEADER

Dr. Robert Van de Castle is a clinical psychologist who has had over fifteen years of experience working with dreams. Bob was formerly the Associate Director of the Institute of Dream Research in Miami, Florida and has been the Director of the Sleep and Dream Laboratory at the University of Virginia Medical School for the past thirteen years, where he is currently a Professor in the Department of Behavioral Medicine and Psychiatry.

Bob co-authored (with Calvin Hall) THE CONTENT ANALYSIS OF DREAMS and also wrote THE PSYCHOLOGY OF DREAMING. For several years, he led dream workshops at his farm and at the A.R.E. (Edgar Cayce) camp in southern Virginia. Known as the "Prince of the Percipients" for his successful demonstrations of telepathic dreaming in a controlled laboratory setting, Bob has also achieved recognition as a leading researcher in parapsychology. He has been interviewed on national TV by Barbara Walters, Mike Douglas, David Letterman and Tom Snyder.

Gateway is dedicated to the development and exploration of human consciousness. It is a system of exercises designed to aid the individual in the improvement of their own higher self, that they may experience profound areas of expanded awareness, achieve and willfully control their physical body and the out-of-body state, communicate with and visit other energy structures and realities.

TECHNOLOGY:

The basics of the Gateway training process are the Frequency Following Response (FFR) and Hemispheric Synchronization (HEMISYNC), created in the electrical patterns of the brain by the induction of specific sound pulses both singly and binaurally into the human auditory system. Robert Monroe was granted a generic patent for this method and technique in 1975. By blending and sequencing such sound pulses, it is possible to aid the individual in developing states of consciousness not ordinarily available to them.

PRACTICAL APPLICATION:

The typical Gateway session consists of a series of conducted pre-recorded exercises utilizing both FFR, HEMISYNC, and vocal guidance to achieve progressive states of consciousness. These are

OVER-----

heard through stereo headphones while in a relaxed position, under the supervision of Institute trainers and technicians. Reinforcement of feedback learning of such states is enhanced by lectures, discussions, and single interviews using standard accelerated learning techniques. Goals are achievement of: FOCUS 3 (BASIC HEMISYNC), FOCUS 10 (MIND AWAKE--BODY ASLEEP), FOCUS 12 (EXPANDED AWARENESS), FOCUS 15 (NO TIME), and FOCUS 21 (OTHER ENERGY SYSTEMS).

DISCOVERY SESSIONS (Weekend):

Development of primary Gateway states with emphasis on learning to self-direct and control consciousness in entry and return.

VOYAGE SESSIONS (Week-long):

Incorporating all previous Gateway training, plus exercises in use and direct application of such added consciousness, and individual exploration of other energy systems and realities.

FOCUS 12 CLUB (Weekend):

An advanced meeting for those participants who have completed the Voyage session. Reinforcement of all Gateway consciousness states, group penetration of other energy systems, one-to-one exploration.

DATES: See attached 1981 Schedule

COST: DISCOVERY-----\$350.00
VOYAGE-----\$850.00
FOCUS 12 CLUB-----\$ 75.00

The above includes room, board and transportation to and from point of arrival in Charlottesville.
